TRANSITION TO STD*MIS

As we move closer to the transition from REACTOR, LOGBOOK, NETSS, etc., to STD*MIS, there is some vital information that is needed. To simplify this and standardize the information, please complete the following form and information. You may need to contact your local computer staff for a couple of the technical questions. Please complete one of these for each person in your jurisdiction who will be working with collecting and entering data for the various diseases under the STD arena.
